22. In accordance with paragraph (H)(10)(c)(3308.10.3) of this rule

Additional Requirements

- Both the Fire Official and licensed exhibitor should mutually agree in advance on a method used to communicate during the exhibition. Agreement should also be made in advance pertaining to the exact location the Fire Official will be stationed to maintain safety for all involved.
- If a condition arises requiring the entry of fire protection or other emergency response personnel into the fallout area security perimeter, the display shall be halted until the situation is resolved.
- If a significant hazard exists due to weather, lack of crowd control, or other condition, the exhibition shall be halted until resolved.
- The security of the display site shall be maintained until released by the exhibitor.
- Check with the safety person and monitors for any signs of problems.
- Allow registered assistants to enter the area and attend to extinguishing fires, smoldering embers, and debris in the firing area and fallout area.
- Before entering the area, wait a minimum period of time, that the exhibitor deems necessary, to include letting the area cool with resulting inspection by fireworks crew.
- Confer with the licensed exhibitor and, if mutually agreed, release fire crew and equipment from the scene. Do not release security or monitors. Maintain barricades for area until spectators have left.
- Be sure all live product and duds are properly repackaged and secured into vehicle. Replace placards on vehicle.
- Where fireworks are displayed at night, appropriate morning re-inspection of the site should be mutually agreed to.

The completed permit application and completed checklist constitute final approval by the AHJ. These forms shall be submitted to the state fire marshal's office by the fire official no later than five days after the date of the exhibition. Please return to:
