ARKANSAS GAME AND FISH COMMISSION
LITTLE ROCK, ARKANSAS

COMMISSION ORDER NUMBER 022-74

Minutes of: August 12-13, 1974

Location: Statewide

Effective: October 1, 1974

Subject: Seasons and Mesh Sizes

AMENDS CODE BOOK SECTION 120.00 O R D E R

120.00 MINIMUM MESH SIZES MEASURED WHEN MESH IS WET AND/OR TREATED WITH PRESERVATIVE. Hoop nets, wings, leads, or heart and leads: Minimum mesh size, 2 1/2 inches. Fish seines: Minimum mesh size, 3 inches.

Three (3) inch bar mesh gill and trammel nets may be used day and night, for commercial purposes only, from October 1 through April 30. EXCEPTIONS: Three (3) inch bar mesh gill and trammel nets may be used day and night for commercial purposes only, the entire year, on the following streams only: Red River, Little River from its mouth to within 100 yards of Millwood Dam; Ouachita River up to the mouth of Little Missouri River; Fourche LaFave from its mouth to Highway 7 bridge; Petit Jean River from its mouth to Highway 10 bridge at Danville; White River up to the mouth of Salado Creek; Black River up to the mouth of Spring River; and St. Francis River up to the mouth of the left-hand chute of Little River. Such fishing is permitted only within the normal banks of these streams, regardless of water stage or level, and does not include any lake, bay, or other body of water which may be connected or adjacent to the streams named.

Three (3) inch bar mesh gill and trammel nets may be used day and night, for commercial purposes only, the entire year, in Arkansas waters between the main levees of the Mississippi River and all lakes through which the state line may traverse. Said mesh size to be measured after the nets have been treated with preservatives and when wet.

All navigation pools on the Arkansas River from Lock #2 and Dam #2 up-stream to the Highway 7 bridge may be fished year around with gill and trammel nets having no smaller than three and one-half (3 1/2) inch bar mesh.

All navigation pools on the Arkansas River above the Dardanelle Dam to the Oklahoma line may be fished with gill and trammel nets with no smaller than three and one-half (3 1/2) inch bar mesh, EXCEPT the use of gill and trammel nets are prohibited in this area from March 1 through May 31.

Gill and trammel nets may be fished in the Arkansas River below the Morgan Cut-Off to the Mississippi River year around, with bar mesh sizes not less than three (3) inches. No commercial fishing is permitted in the 100 yards below any lock and dam.

The use of seines or nets other than as provided for in this regulation is prohibited except under special permit.
